

ATTENTION

LEASING PROFESSIONALS

We are seeking leasing professionals in all areas of the country who would like an opportunity to make good money leasing and permitting billboard locations for us. Our Company receives leads and inquiries on hundreds of terrific opportunities all over the country. Many of these locations "fit our model" as far as something we would pursue directly; however, quite often we are presented with potential billboard locations that for one reason or another require the knowledge, expertise, and experience of a "local" leasing professional. If you can meet the requirements listed below, we would like to have a confidential conversation with you.

- Experience leasing property for billboards
- A thorough, working knowledge of all the state and local billboard laws and zoning requirements in your particular area of the country
- The experience and ability to negotiate fair and realistic lease rates and terms for the locations which we would provide for you
- The ability to recognize the potential of a "great" billboard location and understand the requirements (traffic count, demographics, visibility, etc.) that make it great. The ability and willingness to work as an independent contractor
- Honesty and Integrity in every opportunity which we would provide for you
- Desire to be "well compensated" for your experience and knowledge

We are NOT looking for:

- People who have never leased and / or permitted billboard locations
- Part time real estate people with no billboard experience
- People who think they would like to "learn the business"

However, if you feel that you meet the requirements which we have outlined above, please send us an email indicating your interest and just briefly outline your past experience in the outdoor advertising business. We will be happy to contact you for a confidential conversation.

Please respond to: Jim Richardson
